

# MITCHELL DECLINES PRESIDENT'S OFFER

## BATTLE FOR ONE OF BROADWAY'S CORNERS.

**L. C. Morehouse and John Yule Run  
Price of Thirteenth and Broadway  
Up to \$107,250—Henshaw Be-  
lieved to be the Purchaser.**

This afternoon, at 12:30 o'clock, the property consisting of the two-story brick and cement building and the lot at the northeast corner of Thirteenth street and Broadway, 50 x 100 feet, was sold at a referee's sale at the eastern entrance to the Court House. The purchase price was \$107,250. Joe Lanktree acted as referee. The ostensible purchaser was Attorney John Yule, though it is understood that he was acting for W. G. Henshaw, president of the Union Savings Bank. There were only three bidders, L. C. Morehouse, T. D. Carneal and Attorney Yule. It had been expected that the contest for the property would be confined to Morehouse and Carneal. The latter, however, dropped out early in the game and then Yule took his place and remained in it until, at length he bore off the prize. Fully thirty minutes were consumed in the contest for the mastery and, in that time, there was a circle of eager faces of real estate men, financiers, attorneys, judges and hangers-on, some smiling, other with mouths agape but all deeply interested, surrounding those who were bidding to their limit to secure possession of the coveted prize. Both Messrs. Morehouse and Yule were conservative bidders, but the former put up larger offers, as a general thing, than did the attorney. The bidding started with an offer of \$70,000 by Morehouse. Carneal remained in the contest until the figure went up to \$81,000, when he retired. Attorney Yule then entered the fight. The bidding was the most spirited ever witnessed here. The price paid is the largest ever given for so small a piece of ground in this city. Among those present at the sale besides the principals noted were: Reed & Nussbaumer, attorneys for Carneal; W. G. Henshaw, president of the Union

Savings Bank; George D. Metcalf, attorney for L. C. Morehouse; Attorney Black, Attorney George Jackson, Messrs. Woodward & Watson, W. H. Taylor, Ross Bromley, E. W. Runnion, director of the First National Bank; Judge Ellsworth and a number of others. The sale was made for the purpose of settling a case which has been pending in the courts for some time, seeking to partition the property which was sold under the hammer. The plaintiff was T. D. Carneal and the defendant L. C. Morehouse. Many years ago the property in question belonged to John G. White, who for a number of years was a Councilman of this city. When he died the property descended to two daughters, each of whom secured an undivided half interest in the same. Subsequently that interest came into the possession of T. D. Carneal and L. C. Morehouse, respectively. Neither of these would surrender to the other. The court decided that the property could not be partitioned and that, accordingly, it would have to be sold and the proceeds divided among those in whom the title was vested. Hence the sale. Proceedings were to have opened at 12 o'clock, but Referee Lanktree said he would allow a little grace, so that it was five minutes after the meridian when he commenced to read the legal notice of the sale. The notice was a formal one describing the property and setting forth the order of the court. At five minutes past 12, L. C. Morehouse took from his wallet a gray piece of paper. It was a certified check for \$5,000. He handed it to Lanktree, and as he did so, said: "This is an evidence of good faith." The deposition of this check with the referee was brought to the attention of

T. D. Carneal, who, at the time, was supposed to be the only competitor Mr. Morehouse would have. Carneal had not taken the precaution to come provided with a check of that amount. Speaking for him, Attorney G. W. Reed said: "A deposit of the kind is not expected. No reference was made to it in the notice of sale. If such a deposit be insisted upon, we shall ask time to cover any deposit that may be made." "Mr. Metcalf said that there was no desire to take advantage of any bidder but it was expedient to have it understood that the sale was to be for cash or for a certified check, which could be considered as good as cash. He suggested, therefore, that the referee announce those conditions, and furthermore state that if the sale should not be for cash, it should be made for a check which the referee would consider as cash." "I have half of the property already put up as security," said Carneal. "I think that ought to be enough." "Is there to be any stipulation as to the amount which should be put up?" asked Attorney Reed. "I think," said Mr. Carneal, "that it should be understood that the referee should receive no inconsequential bids." Lanktree said that that would be understood. "I shall make no such bids," said Mr. Morehouse. "I know you would not," said Attorney Reed. "If you buy the property we will consider it a cash transaction until the check can be secured." Mr. Morehouse thought that a check should be deposited in advance. Mr. Reed said that that could not be done because nobody could tell at what figure the property would be sold. At length Lanktree announced that he was ready to receive bids. There was an intense silence for a minute and then the fee was broken. Morehouse—I bid \$70,000. Carneal—\$75,000. Morehouse—I will give \$80,000. Lanktree—Make it \$85,000. Mr. Carneal—You might as well. Morehouse—I will make it \$107,250. Lanktree—Make it \$81,000.

## GEORGE BROZ IS NOW AN ABSCONDER

**Steals \$300 and Leaves City—  
Irate Husband Will Kill  
Him on Sight.**

George Broz, a delivery man in the employ of Brelling Brothers, butchers, 1473 Eighth street, has disappeared, taking with him \$300 of collections which he had made for his employers. A few days after his disappearance, Brelling Brothers received a note from him to the effect that he was laid up with a broken limb in San Francisco. The Brellings sent one of their men to the home of a sister of Broz, a Mrs. Goldener, at 816 Florida street, to ascertain if Broz were there. Goldener the

brother-in-law said he did not know Broz whereabouts and would advise the firm to look over Broz' books. The suggestion was complied with and the shortage was discovered. A few days later, a man from Piedmont called to see Broz at the market. He said he intended to kill Broz because the latter had caused his (the Piedmont man's) wife to leave her home. Broz was a member of Company F, Fifth Infantry, N. G. C., and Marshal of Oakland Parlor, N. S. G. W. He was a natty appearing young man. His parents reside in Los Gatos.

Morehouse—I will make it \$31,000. Carneal—I am out of it. Yule—I will give \$250 more. Lanktree—That makes it \$31,250. Morehouse—\$32,000. Yule—\$350 more. Lanktree—Now we have \$32,500. So it increased at the rate generally of \$250 a clip until \$35,000 had been bid. Yule—I'll try one \$250 more. At this juncture it was thought that Yule was about to withdraw. Morehouse saw him and went \$250 more. "When \$35,500 was reached, Yule increased his bidding limit to \$500. "I'll make it \$90,000." "I'll make it \$90,500," said Morehouse. In this way, Morehouse soon reached \$91,000. When he had done that then another little hiatus. Yule, addressing Morehouse—How deep is your pocket, Lew? Morehouse—You haven't reached its depth yet. Yule—I'll make it \$91,500. Lanktree to Morehouse—Try him on that. Morehouse jumped to \$92,000. There were a couple of raises of only \$100 each. Finally there was a reversal to \$250 and sometimes to \$500, until finally Morehouse said: "Call it \$100,000." It was thought that the fight would stop there. Up, up it climbed at \$500 clips until at length Yule said: "I'll give \$107,250." "I'll quit," said Mr. Morehouse, and the fight was over. There were ninety-eight bids offered. This property was knocked down to Yule. The purchaser did not have the purchase price with him. Lanktree accompanied Yule up the street to the Union Savings Bank to get the money. Mr. Morehouse said: "I am thoroughly satisfied."

**MAGNIFICENT BUILDING.** It is reported on good authority that Mr. Henshaw will erect a magnificent modern building on the property.

## STRIKE LEADER WILL NOT TAKE CHANCES.

**He Declares That the Miners Were  
Willing to Meet the Coal Barons  
More Than Half Way.**

WASHINGTON, Oct. 9.—President Mitchell of the Coal Miners' Union has refused to comply with the appeal of President Roosevelt to call the strike off. His letter to the President, which was made public at the White House, today, is as follows: "Office National President, United Mine Workers of America, John Mitchell, National President; Vice-President American Federation of Labor, Hotel Hart, Wilkesbarre, Pa., October 8, 1902. "Hon. Theodore Roosevelt, President of the United States, Washington, D. C.—Dear Sir: Carroll D. Wright has, no doubt, reported to you the delivery of my message to me last Monday and my statement to him that I should take your suggestion under advisement, although I did not look upon it with favor. "Since that time I have consulted with our district presidents who concur fully in my views. "We desire to assure you again that we feel keenly the responsibility of our position and the gravity of the situation and it would give us great pleasure to take any action which would bring this coal strike to an end in a manner that would safeguard the interests of our constituents. "In proposing that there be an immediate resumption of coal mining upon the conditions we suggested in the conference at the White House we believed that we had gone more than half way and had met your wishes. "It is unnecessary in this letter to refer to the malicious assault made upon us in the response of the coal operators. We feel confident that you must have been impressed with the fairness of our proposition and the insincerity of those who maligned us. "Having in mind our experience with the coal operators in the past we have no reason to feel any degree of confidence in their willingness to do us justice in the future, and inasmuch as they have refused to accept the decision of a tribunal selected by you and inasmuch as there is no law through which you could enforce the findings of the commission you suggest, we respectfully decline to advise our people to return to work simply upon the hope that the coal operators might be induced or forced to comply with the recommendations of your commission. "As stated above, we believe that we went more than half way in our proposal at Washington and we do not feel that we should be asked to make further sacrifices. "We appreciate your solicitude for the people of our country who are now and will be subjected to great suffering and inconvenience by a prolongation of the coal strike, and we feel that the onus of this terrible state of affairs should be placed upon the side which has refused to refer to fair and impartial investigation. "I am, respectfully, "JOHN MITCHELL, "President U. M. W. A."

**Mitchell is Silent.** NEW YORK, Oct. 9.—President Mitchell of the United Mine Workers, who arrived in the city last night accompanied by District Presidents Nichols, Duffy and Fahey, refused to answer any questions this morning that would throw any light on his plans or contemplated movements. "There is nothing I can say as to my purpose here," he said. He was asked in particular as to what took place or was the outcome of the conference held last night, with Senators Quay and Penrose and a man said to be L. H. Hammerling, an independent coal operator from Wilkesbarre, Pa. Some reports say that Senator Platt and Chairman Duff of the New York State Republican Committee were likewise present. While Mr. Mitchell was at breakfast

Moses W. Solomon, a lawyer of Chicago, joined him. The two talked a few moments and then Mr. Mitchell used the long distance telephone for about fifteen minutes. He and Mr. Solomon then went to Mr. Mitchell's room. Mr. Mitchell was asked if he was going to Washington in view of the meeting here of the Executive Council of the American Federation of Labor, of which he is a member. "I probably shall not go today," was the leader's answer, but he would say no more. Among the many rumors started today by the arrival of Mr. Mitchell in New York was a report that the Erie Railroad had decided to yield and has control of the territory from Wapalopa and Mocoanona on the south to Forest City on the north, a stretch of sixty miles. The General's attention was called to statements made by company superintendents that the production of coal depends altogether whether the troops are relied on to protect workmen and he was asked if his men will do police duty. He replied that he would do whatever Governor Stone ordered him to do. The soldiers were respectfully received everywhere in the valley. "Shot Through Heart." TAMAQUA, Pa., Oct. 9.—James Burnham, a striker, was shot through the heart and instantly killed by a soldier on guard duty at Brownsville. Burnham is said to have been loitering in the vicinity of a non-unionist's house, which was partly destroyed by an explosion last week. The soldier called upon Burnham to halt and this order is said to have been disregarded. An unsuccessful attempt was made last night to dynamite a breaker owned by Shattley Brothers at Tuscarora. "Train Wrecked." HAZELTON, Pa., Oct. 9.—The engine and one car of a Lehigh Valley coal train were derailed during the night at a short distance from the Latimer colliery. The derailment was caused by a big stone which had been placed on the track. A detachment of Company First Regiment, which was summoned, discovered other obstructions on the rails further east. Italians with clubs threatened to

ston trolley cars at Harleigh today but they dispersed before it was necessary to call the militia. "A Mass Meeting." NEW YORK, Oct. 9.—Three committees of citizens, representing the merchants, manufacturers and the Board of Trade of this city, in joint conference, have decided to call a mass meeting to be held next Monday evening, in Carnegie Music Hall, to discuss means of getting coal to the city. It was resolved that discussion on the merits of either side in the strike should be discouraged and the main question of getting coal would be the only one considered.

**NO COMPROMISE  
IN NEW ORLEANS.** TROOPS ARE BEING HELD IN  
EVENT OF TROUBLE WITH  
STRIKERS. NEW ORLEANS, Oct. 9.—Under the orders of General Glynn, commanding the first military department, all the local troops are assembling in their armories. When his commands are in readiness, General Glynn will confer with Mayor Capdeville, as to the disposition of the forces with the probability that a strong body will first be thrown along Canal street, the scene of the recent disturbances, in order to put the trolley lines on that boulevard in operation. Troops out in the State are being held in readiness to come here in the event that the local forces are insufficient to control the situation. It is understood that Governor Heard will come to New Orleans this afternoon and if necessary assume full command of the situation. A large crowd of strikers and their sympathizers was on Canal street at 7 o'clock this morning in anticipation of a fresh attempt to operate the cars. One hundred and fifty policemen, on foot and mounted, were sent to the scene at an early hour. Two mail cars were sent out from the barn, but were not molested. ## MINISTERS ARE IN FAVOR OF THE STRIKING MINERS.

The following resolution commending the action of the striking coal miners was unanimously passed this morning by the members of the Twenty-second Annual Session of the Central Baptist Association now being held in this city: "Resolved, That we hereby express our sympathy with the coal miners in Pennsylvania in their present distress and commend the officers of their organization for the manner in which they have conducted their business, which we trust may be successfully terminated as they desire."

## ONE THOUSAND ROUNDS OF AMMUNITION SEIZED.

SCRANTON, Pa., Oct. 9.—One thousand rounds of ammunition was seized and confiscated at the Delaware and Hudson freight station in Oil-phant today by order of Colonel Watres of the Thirteenth Regiment. This makes 2,500 rounds of ammunition that has been confiscated in the anthracite district commanded by Colonel Watres within the past two weeks. The ammunition was consigned to Bastiano Passano, a leader among the Italians in upper Lackawanna county. Passano was placed under arrest as he was about to receipt for the ammunition. Colonel Watres has been informed that bodies of men have been drilling in the woods almost daily. Yesterday he had detachments of men out scouring the woods for evidence of such action, and the knowledge that the consignment of ammunition had been shipped to Passano was obtained by one of these detachments.

## VOTE TO STRIKE IN GENEVA.

LONDON, Oct. 9.—A dispatch to a news agency from Geneva, Switzerland, today announces that the Workmen's National Committee has decreed a general strike throughout Switzerland in sympathy with the street car employees here. Troops are held in readiness to deal with any disorder. ORDER FOR STRIKE. GENEVA, Oct. 9.—The strike was proclaimed by the Workmen's National Committee by a vote of 200 to 4. All the men connected with the building trades struck and the newspapers will have to stop publication; but work continues at the gas works and in the bakeries and the cafes and shops are open. The Workmen's National Committee placarded the streets with an appeal to all workmen to leave their work and announced that before declaring the strike the workmen made a last appeal to the strike committee which refused to receive it. Two additional battalions of infantry and a battalion of artillery are ordered to be held in readiness for eventualities. Towards noon because of threatening attitude of the strikers, the authorities ordered a suspension of street car service.

# BERKELEY and STATE UNIVERSITY

Student Perfects Device, First Night of Catholic Students are Punished  
Which Astonishes the Fair Assures Success For Infraction of  
Scientific World. To Ladies. Discipline.

BRANCH OFFICE, 2211 STANFORD PLACE

TELEPHONE MASON 1761

BERKELEY, Oct. 9.—Otto Goldman, a student of the Senior Class of the College of Natural Sciences at the State University, has invented an automatic machine for analyzing wave curves. The invention is of great importance both from a scientific and practical point of view. The analysis of curves has heretofore been accomplished by two pieces of machinery. Results were obtained only after the greatest care had been used, and were generally unsatisfactory. Goldman has perfected an automatic device, which will analyze the curves with unfailing accuracy.

The invention will be used immediately in electrical engineering. It was with the intention of analyzing electric wave curves that the young student first started his work on the device.

This is but one of a number of inventions which Goldman is working upon. He expects soon to perfect a number of other devices which he claims will be of even greater value than his curve analyzer.

The history of young Goldman is an interesting one. He is but 21 years of age, and registers from Oroville. His work has been mainly in physics and mathematics. This latter branch, he has made his specialty, and although but a senior, he has completed all the mathematical work, both graduate and undergraduate, given in the University. His grades in this department have been uniformly high, as he has never received less than a first section in mathematics, the highest mark given in the University.

While carrying a heavy college course, Goldman has also supported himself in college by tutoring. Up to a year ago, he received a State of California scholarship, amounting to \$125 a year. Finding, however, that he could not pay his expenses through tutoring, he last year gave up his scholarship.

"In my opinion," said Professor Lewis of the Physics Department yesterday, "Mr. Goldman is one of the most brilliant students that the University will graduate. His first invention is an important one, but no more important than his work in college would lead one to expect from him. The value of the instrument lies in the fact that a great number of complex curves are made up of simple curves, which could heretofore be determined only with the greatest difficulty. It is in analyzing such curves that the instrument will be used."

Mr. Goldman spoke very modestly of the device. "It is nothing," he said, "and I deserve no particular credit for the invention. I am simply an ordinary college man, and the device is simply the result of a little thought. I have been working on a mathematical problem. I failed to see that it bears any of the marks of a great invention."

By special invitation, Mr. Goldman explained the working theory of his instrument to the physics and mathematics section of the most brilliant students that the University will graduate. The association is made up of members of the Faculty.

Haywards, Oct. 9.—Preparations for the big annual masquerade ball to be given by the Haywards Fire Department on the evening of November 27th, are progressing rapidly.

A number of years the firemen of Haywards have given a ball, which each time has been the largest and most elaborate function of the season. These events have been attended by hundreds of people and over a hundred prizes have been given away on each occasion.

Native Sons' Hall has been selected as the place in which the ball will be given, as it is necessary to secure the largest dancing pavilion in town to accommodate the host of dancers. The event of this year will be given on the usual elaborate plan. Every arrangement will be made for the amusement of all, and it will undoubtedly equal in every way, if not surpass, previous similar affairs given under the auspices of the Haywards firemen.

At a recent meeting of the department the following committees were appointed to make all necessary arrangements for the ball:

Committee of Arrangements—J. A. Dale, Joseph Godel, R. A. Kolze, M. G. Riggs, George Schilling.

A PECULIAR CASE.

Andrew Hansen, a twelve-year-old boy, who resides with his parents in Crow Canyon, had a needle removed from his arm last week which he had swallowed a number of years ago.

The case is a very peculiar one and has attracted considerable attention. Several years ago, when he was an ordinary sewing needle.

He was troubled with excruciating pains in his abdomen, which at times caused him considerable alarm.

These pains gradually ceased, however, and finally the affair of the needle was forgotten. The boy complained occasionally of pains in different parts of his body, but his parents gave it no particular notice, thinking it was nothing unusual. About a week ago the boy felt sharp pains at his elbow and after the pain had subsided, he appeared a pair of pinchers aided in extracting the needle from the lad's arm, and it is undoubtedly the one that he swallowed some time ago.

MUST WEAR HAT BADGES.

All the motormen and conductors on the Haywards line are now compelled to wear a large nickel plated hat badge on which is the number by which the man is known. The former custom of the Haywards line was the wearing of a small badge bearing the carman's name. This was worn, either pinned to the coat or fastened to a button by a piece of cloth. A number of the carmen have objected to the hat badge on account of its bulk. When riding on other than their car they are compelled to present their badge. In order to do this they will have to remove the badge from their hats when not on duty and carry it around in their pockets.

## WILL MASK AT HAYWARDS.

FIREMEN WILL GIVE ANNUAL  
BALL ON EVENING OF  
NOVEMBER 27TH.

HAYWARDS, Oct. 9.—Preparations for the big annual masquerade ball to be given by the Haywards Fire Department on the evening of November 27th, are progressing rapidly.

A number of years the firemen of Haywards have given a ball, which each time has been the largest and most elaborate function of the season. These events have been attended by hundreds of people and over a hundred prizes have been given away on each occasion.

Native Sons' Hall has been selected as the place in which the ball will be given, as it is necessary to secure the largest dancing pavilion in town to accommodate the host of dancers. The event of this year will be given on the usual elaborate plan. Every arrangement will be made for the amusement of all, and it will undoubtedly equal in every way, if not surpass, previous similar affairs given under the auspices of the Haywards firemen.

At a recent meeting of the department the following committees were appointed to make all necessary arrangements for the ball:

Committee of Arrangements—J. A. Dale, Joseph Godel, R. A. Kolze, M. G. Riggs, George Schilling.

Reception Committee—William Zambrosky, John Obermuller, James McCoy, J. A. Dale, Joseph Godel, George Marianne, Albert La Cunha, J. Pann St., William George, Joseph Schmauch, J. Pann St., George Obermuller, E. H. Riggs, John McCoy, F. V. Merle, M. Welsh.

Invitation Committee—M. J. Riggs, R. A. Kolze, M. Welsh, William Zambrosky, John Obermuller, J. A. Dale, Patterson, George Hooson, J. A. Dale, John McCoy.

Prize Committee—George Hooson, William Zambrosky, R. A. Kolze, M. G. Riggs, George Schilling, George Grindell, J. A. Dale.

Floor Committee—George Hooson, M. Welsh, M. G. Riggs, E. H. Drews, E. Patterson, W. Meyers, A. Farnes, James McCoy, R. A. Kolze, J. Pann St., John McCoy, G. Grindell, George Schilling, W. Meyers, Joseph Schmauch, A. La Cunha, George Marianne.

Already the prize committee has begun collecting prizes for the masquerade. There will be given away over 100 valuable prizes.

A PECULIAR CASE.

Andrew Hansen, a twelve-year-old boy, who resides with his parents in Crow Canyon, had a needle removed from his arm last week which he had swallowed a number of years ago.

The case is a very peculiar one and has attracted considerable attention. Several years ago, when he was an ordinary sewing needle.

He was troubled with excruciating pains in his abdomen, which at times caused him considerable alarm.

These pains gradually ceased, however, and finally the affair of the needle was forgotten. The boy complained occasionally of pains in different parts of his body, but his parents gave it no particular notice, thinking it was nothing unusual. About a week ago the boy felt sharp pains at his elbow and after the pain had subsided, he appeared a pair of pinchers aided in extracting the needle from the lad's arm, and it is undoubtedly the one that he swallowed some time ago.

STATE GRANGE MEETING.

The annual meeting of the State Grange will be held in Sacramento this week and it is the intention of a number of the Eden Grange to be in attendance. Following are the members of the local Grange, who intend to go to Sacramento: Mr. and Mrs. H. V. Mosen, Mr. A. Horton, Mrs. S. Dennis, Mrs. Christensen, Mr. and Mrs. J. Hollister, Sidney Benson, J. Wesley Moore, Olga H. Christensen, L. T. Sorensen, Mrs. John W. Van Thomas.

SHOT A FINE BUCK.

The best specimen of deer secured by any Haywards hunter this season was killed by a party that left here several days ago and returned last Wednesday. The deer weighed 600 pounds and it was impossible to tell who really killed the animal, as four of the party shot at it while it was being chased by the dogs. The party of hunters included Peter Mosegaard, Charles Allen, J. H. Obermuller, J. Vandell and J. Hains.

AN IMPUDENT PROCEEDING.

The criminal prosecution instituted against Dr. Dudley Tait, a member of the State Board of Medical Examiners, for libel by one "Dr." Carl W. Von Tiedeman has the appearance of a very cheeky proceeding in the light of the developments. Von Tiedeman failed to pass an examination before the Medical Examiners, and in the public press accused the Board of deliberate unfairness. He charged that the Examiners discriminated in favor of the graduates of the State University and Cooper Medical College and against the graduates of other medical colleges.

In a newspaper interview Dr. Tait was quoted as saying that Von Tiedeman had worn "stripes in San Quentin" whereupon that individual had him arrested for criminal libel. It transpires that Von Tiedeman did not actually wear stripes in San Quentin, but was convicted of a felony and sentenced to San Quentin prison, but finally escaped the clutches of the law on a technicality. It appears that he has a police record for shady financial transactions.

One would hardly think a man with such a record would have the audacity to ask the courts to vindicate his reputation by punishing a public official whom he had assailed without warrant as being recreant to his duty. It must be borne in mind that Von Tiedeman first accused Dr. Tait of dishonorable conduct, and that his claim of not wearing a felon's stripes was based upon a technicality. He was never acquitted of the offense of which he was convicted, but managed to escape through a flaw in the legal proceedings. A man with such a record is entitled to small consideration, especially when he invites retaliation by attacking reputable men.

Dr. Tait bears an honorable name in the medical profession. Among men whose reputation and medical skill count for something he is esteemed a fair man and a competent medical authority. Naturally a man of his character could not be otherwise than indignant at having his official probity assailed by a fellow of Von Tiedeman's kidney, whose grievance was that he had not been granted a license to prey upon the sick. A physician should be not only competent, but trustworthy, and the weight of testimony goes to show that Von Tiedeman is neither.

GREIG FOR RECORDER.

Not the least deserving of the candidates on the Republican ticket is Robert Greig, nominee for County Recorder. Mr. Greig is a man of good character and excellent qualities. He is popular and respected among his neighbors. Mr. Greig is held in the highest esteem by those who have held business and social relations with him.

As the unanimous nominee of the Republican Convention, he may well feel entitled to the full Republican vote of the county. He has always been a loyal member of the Republican party and an active worker in its ranks, and has a right, now that he is the party candidate for office, to receive the support he has so cheerfully given the party's candidates in the past.

Mr. Greig has not heretofore held office, but his character and standing in the community warrant the conclusion that he will prove a competent and trustworthy official. A man of his intelligence and capacity can quickly acquaint himself with the duties of County Recorder, and there can be no doubt that if he is elected he will maintain the high standard of efficiency that has characterized the conduct of the office in the past.

Mr. Greig is a responsible citizen of Suisun. He can be called a workman because he served his time as a carpenter and has worked for many years at his trade. He is both a good man and a good mechanic, and there is no reason to believe that he would not be a good officer. He is worthy the favorable consideration of the voters.

PUBLIC ENEMIES.

The United Mine Workers have voted to continue the anthracite coal strike despite the appeal of President Roosevelt to John Mitchell, president of the Miners' Union, to allow the men to go back to work. This conflict with the simultaneous ordering out of the entire military force of Pennsylvania for service in the colliery districts, has made the situation tense and ever. The operators remain stubborn and unyielding. From the start they have absolutely refused to recognize or treat with the miners' union. They have refused to arbitrate and have declined to make even the smallest concession, and have rejected all offers of mediation. The clergy, the President, the manufacturers, and the pressure of public opinion have failed to move them.

Even supreme public necessity, the pinch of privation and the multiplied sufferings of the poor have excited no responsive throbs of sympathy or justice.

Bread has risen two cents a loaf in New York in consequence of the scarcity of fuel, and American manufacturers are buying coal in England to avoid closing down their mills and shops. The coal barons now stand arrayed against the nation. Their attitude is one of enmity to the public welfare and the public peace.

PARDEE IN THE NORTH.

The splendid reception accorded Dr. Pardee in the southern end of the State is being repeated on his northern tour. He is greeted with marked enthusiasm at every point. Immense crowds listen to him attentively at every speaking place, and cheer his utterances with a hearty spirit that evinces their appreciation of the man and what he stands for in this campaign.

It is quite evident that Dr. Pardee's canvass is making rapid headway with the thoughtful and conservative elements of society in every part of the State. It is clearly understood that he is not the representative of a class or a condition, but stands for the best in American politics and American citizenship. His candidacy appeals to good citizens everywhere as being dignified, frank and in the best interests of the State. He is not only drawing to himself the united strength of the Republican Party, but is attracting to his support thousands of solid Democrats and citizens of independent proclivities.

Twice Dr. Pardee has spoken in San Francisco, and each time he was greeted by an immense and enthusiastic throng. These demonstrations contrasted the absurd stories about the city giving Lane a tremendous majority, and that is the only place the Republicans have any cause to fear. In all the other great centers of population Dr. Pardee's overwhelming popularity is apparent. His election by a very large majority now appears beyond dispute.

LANE'S UNHATCHED CHICKENS.

The further Mr. Lane gets away from home the larger the majority he expects to receive in San Francisco grows—under the stimulus of his ardent imagination. It is a case of perhaps, "Gimme the core when you're done eatin' your apple," asked one street gambler of another. "There ain't goin' to be no core," was the terse response. While Mr. Lane is speculating on the size of his San Francisco majority, he would do well to figure on the possibility of his getting none. It is quite probable that there will be no core. And then what'll poor Robin do?

The difference between the Republican and Democratic parties is one of attitude and performance as well as one of principles. The Republican party is one of affirmation, the Democratic party one of negation. The Republican party does, the Democratic party opposes. The Republican party proposes, the Democratic party objects. The Republican party legislates, the Democratic party finds fault. The Democratic attitude in politics is akin to that of the idler who insists upon bossing the job he will not tackle himself.

The Democratic candidate for Congress in the Sixth District is unfortunate. His opponents good humoredly allude to him as "My Dear Gaston," and at each mention of this name the ridiculous mishaps of the "Dear Gaston" of the newspaper cartoons are pictured to the memory and stir the possibilities. On election day it will be "After you, my dear Alphonse," with Gaston. The Republican candidate will be elected because it is a case of need him.

The size of John P. Cook's majority is now the only matter in doubt, but no citizen should neglect to vote for him on the ground that his vote will not be needed. Mr. Cook is worthy of the support of every citizen in the county, and the voters appear to be fully aware of the fact. The County Clerk's office is the one office in the county politically important, and for that reason every loyal Republican should cast a vote for Mr. Cook.

The Republican county ticket grows stronger the nearer election day approaches. The closer it is scanned, the plainer its general excellence appears. It is composed of men known to be competent and reliable, men of character and experience. The voters are alive to the fact that a vote for the Republican ticket is a vote for good government.

The Democratic assault on the tariff promises to be a rehearsal of the same old story—"Great cry and little wool."

A CASE OF IT.

Many More Like It in Oakland.

The following case is but one of many similarly occurring daily in Oakland. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such a conclusive evidence. Mrs. Peter Holme (Peter Holme, salmon fisher), 613 Sixth street, says: "Mr. Holme has gone to Alaska on a salmon fishing boat and will not return for some months. Shortly before he went away his back ached so he could not work and I honestly believe if it had not been for the use of Doan's Kidney Pills obtained from the Great Drug Company's store, we would have been unable to make the journey. Mr. Holme had attacks of backache for many years. At first they were mild but with the passing of time they came more frequently and were much more acute. The last one was very severe and when Doan's Kidney Pills stopped and enabled him to return to work, to say the least, a very high opinion of the preparation mildly expresses the fact."

Mr. and Mrs. James W. Barnham will return to their Alameda home about the 15th of October, after an absence of six months, traveling all over Europe and the Eastern States, where they will be pleased to see all of their old friends again at 137 Clinton avenue.

BURIED WITHOUT SOLVING MYSTERY

Unattended by mourners, and without any services whatever, the remains of the unknown man, who was so mysteriously cut to pieces by the early morning train last Saturday morning, were interred yesterday afternoon in the Potter's Field at the county's expense. It has never been learned just how the man came to his untimely death, but strong indications that he had been foully dealt with, and his body placed upon the track to destroy all evidence of the crime. The police, however, were unable to collect any tangible facts which would support this theory.

AN OAKLAND MAN KILLED AT SUISUN

THOMAS WOOLEY FALLS FROM SCAFFOLD AND CRUSHES HIS SKULL.

Thomas Wooley, a boiler-maker whose former home was at 679 Third street, was accidentally killed yesterday at Suisun. He was working on a scaffold, erecting a big tank for the Pacific Portland Cement Company, when he fell off the staging into the lake, striking the iron roof of the inclosure upon his head and crushing his skull. Wooley was taken to a hospital, where he soon afterward died. The deceased leaves a family consisting of two sons and two daughters. The remains will be brought to this city for interment.

CAMPAIGN OPENED AT SANTA MARIA

REPUBLICANS HOLD A ROUSING RALLY IN THE PROSPEROUS SOUTHERN TOWN.

SANTA MARIA, Oct. 9.—The Republican campaign opened here last night with a rousing rally in McMillan's Hall. The place was packed with voters, many of whom came from points fifty miles away to hear Captain M. J. Danaher, Republican nominee for Congress in the Eighth District. William M. Peck of Riverside and State Senator S. C. Sosa of Kern also addressed the audience and were repeatedly interrupted with cheers and applause.

COUNTY POULTRY WINS PREMIUMS

COMING FAIR AND BOOMING OF THIS SECTION BY BIRD FANCIERS.

There will be another poultry show in this city during the first week in December. It will be under the auspices of the Oakland Poultry Association, which gave the last three shows of this kind, which were held in this city. Those exhibitions were pronounced professional and financial successes.

The decision with respect to the holding of the fair in question was arrived at last night at a meeting of the association, which was held at the store of L. N. Cobbledick on Twelfth street near Franklin. There was a large attendance of members, as also of poultry fanciers, who spent the evening in a discussion of subjects of interest to raisers of poultry and kindred occupations. Addresses were made by L. N. Cobbledick, J. C. Williams, C. G. Hinds and a number of others.

An interesting feature of the gathering was the presence of prize-winning birds which have just returned from the State Fair at Sacramento. There were about 30 of these high-bred birds, all of which were from this county, and had won ribbons and medals for their owners. These birds made an excellent appearance and were the cause of just pride on the part of their owners. They offered excellent proof of the fact that this city and vicinity are attaining success in the matter of raising the choicest kind of poultry. This is one of the gratifying results of the poultry exhibits which have been held here in recent years, each of which has been a more unequivocal success than those which preceded it.

For years, Petaluma has been looked upon as the poultry center of the State. The fair which has been held here, however, has stimulated the poultry business in this city and county to a degree that can scarcely be credited save by those who are cognizant of what has been done. The fair in question, together with the judicious advertising done by the association have directed the attention of bird-fanciers to the availability of this county as a place for chicken-raising and, as a consequence, chicken-ranches are literally studding the miles of territory between this city and Eureka.

Nearly every person who has engaged in the business here is making money because San Francisco, Oakland and the surrounding cities always afford a ready market for dressed fowl and eggs, both of which always command high prices.

In this connection it may be mentioned that W. N. Cobbledick, president of the Oakland Poultry Association, has been honored by appointment as one of four members comprising the Poultry Committee of the Live Stock Commission of the National Fair at St. Louis. This is an honor of no small degree and is appreciated by all the poultry fanciers in Alameda county.

TWO LAUNCHINGS SATURDAY NEXT

HAY & WRIGHT'S AND BOOLE'S YARDS TO GIVE BRIDES TO THE SEA.

Next Saturday afternoon at 12:30 o'clock there will be a launching at Hay & Wright's ship yard, which will be of interest to people who appreciate the advance being made in the ship building industry of this city. The new ocean carrier is to be the four-masted schooner "Vindicta," which has been built for Swift & Loop. The launching will be witnessed by a large number of people. On the same day, at nearly the same time, there will be another launching at Boole's ship yard.

This is the first time in the history of this city that two events of this kind will take place on the same day and both within a short distance of one another.

## ALLENDALE PEOPLE ARE TRUE TO REPUBLICANISM

ENTHUSIASTIC RALLY HELD IN UPPER FRUITVALE—CANDIDATES ARE WELL RECEIVED BY THE PEOPLE.

The Republicans of Alameda County turned out in force last night to meet the county candidates. The meeting was marked by its enthusiasm. The speakers were cheered and the candidates were cheered. The names of George C. Pardee, Victor H. Metcalf and George C. Perkins brought warm responses from the audience when mentioned. A display of five works, and discharge of a small cannon, and the echoes before the meeting and a huge bonfire illuminated the way to the hall. The musical part of the program was furnished by Lund's Mandolin Club. W. B. Bridges was called upon to preside over the meeting and introduce the respective candidates. The speakers caught the spirit of enthusiasm of the audience and delivered telling speeches. Deputy District Attorney A. P. Leach was the speaker of the evening and delivered an eloquent vote-getting speech on the issues of the campaign. The audience cheered his effort for fully five minutes. J. P. COOK.

John P. Cook, candidate for County Clerk, was the first speaker. He was given a flattering reception and made a happy address. He said: "Alameda has grown so rapidly during the last four years that it has been put into a precinct by itself. It is no longer a part of Fruitvale. I understand that the citizens own their own homes. You will be given a chance to demonstrate your political inclinations as a precinct this election. We hope that the first vote you cast as a separate precinct will be a favorable one to the Republican party, such as you used to give when you were a part of Fruitvale. "I believe the personnel of the candidates before you is such as to justify your voting for them irrespective of party. They are men who have been tried in the balance of experience and not been found wanting. Another reason that should influence the voters of this county is the success of the Republican party as a governing power. It has done well by the people and is deserving of another trial."

J. CAL EWIN.

County Auditor J. Cal Ewin, candidate for re-election, was the next speaker called upon. He said: "Four years ago I did not have the opportunity of addressing you for that time I believe the hall in which we now meet was not in existence. Because you changed your precinct I do not believe you have changed your politics. Four years ago when I ran for Auditor I remember with deep satisfaction that a portion of my vote came from the Fruitvale District. I do not believe the voters will change their mind and vote for me this time that campaign have been fulfilled. The party and the candidates stand forth in a better light than ever before. I trust that the voters of this county will roll up a big majority for our fearless standard bearer, George C. Pardee and for every candidate on the State and county ticket."

ROBERT GREIG.

Robert Greig, the Berkeley candidate for County Recorder, was the next speaker. He said: "This is the first time I have ever appeared in the role of a political candidate. I have been considered a good carpenter and that is the only recognition that I come before you with. I am on the same ticket as these gentlemen before you. I believe the people of this county are well represented by the Republican party. The duties of the office require capable and, above all, honest administration. If the people of this county are not satisfied with the present administration, I promise you four years hence there will be a clean record attached to the office."

WANDERERS

Travel Thousands of Miles and Find it at Home.

We go about from one place to another in search of something we desire, without success, and finally find it right at home awaiting us. A mining engineer out in Mansfield, Mo., tells of his experience with coffee.

He says: "Up to the year 1898 I had always been accustomed to drinking coffee with my breakfast each morning. In the summer of that year I developed a severe case of nervous prostration and I took several courses of treatment for it in Toronto, Buffalo and New York City without obtaining any permanent benefit. "One of the most trying manifestations of the malady was a condition of nervous excitement in which I found myself every day during the forenoon. It never occurred to me to attribute this to coffee until I read an advertisement of yours last fall describing a case similar to my own which had received benefit from the use of Postum Cereal Food Coffee. I at once changed my breakfast beverage from Java and Mocha to Postum and the effect was nothing short of marvelous. After using it less than a week I was free from morning attacks and in six months all my nervous symptoms had disappeared. "I have demonstrated the fact that by following your directions in making Postum Food Coffee any one can obtain as rich a cup of coffee from Postum as from any of the imported brands, and may rest assured that they will escape the injurious effects of coffee and experience much benefit from the use of Postum." Name given by Postum Co., Battle Creek, Mich.

HE ACTED IN SELF DEFENSE

WIFE FILES RETRACTION OF CHARGES AGAINST HUSBAND.

A formal dismissal of the divorce proceedings instituted by Mrs. Martha Clatanoff against her husband, Henry Clatanoff, will probably take place in a few days as Mrs. Clatanoff yesterday made a written retraction of the charges she had preferred against her husband. Truly was the alleged ground for the divorce.

On September 10th, Clatanoff, who is a West Oakland grocer, had published in the papers a notice stating that he would not be responsible for any bills contracted by his wife. In a few days his wife retailed by bringing suit for a separation.

However, Mrs. Clatanoff has now come forward with the following retraction: "I, Martha Clatanoff, do hereby acknowledge that I have wrongfully accused my husband, Henry Clatanoff. He has never hit or abused me and only acted in self-defense when I have shown signs of abuse."

INJURES HIS HAND.

E. Schaefer, a millman residing at 82 Franklin street, was treated at the Reformed Hospital yesterday for a lacerated hand.

SEVEN MEN AND A BOY SLEEPING IN BOX CAR.

Officers Beck and Fogarty made a raid last night on a box car at Sixteenth street station and found seven men and a boy using the car for sleeping apartments. The inmates were taken to the City Prison where a charge of violating the sleeping ordinance was placed against each one. In the Police Court this morning all of the men were sentenced to ten days in jail, while the boy, who is only fourteen, was given his liberty.

HE MAKES CHARGE OF FRAUD IN COURT

BROTHER AGAINST BROTHER IN A FIGHT OVER AN ESTATE.

A complaint was filed yesterday wherein Jose G. Alvizo seeks to recover from his brother, Valentine Alvizo, \$15,000, which he alleges his brother has by fraud and deceit deprived him of. The money belongs to the estate of Augustine Alvizo, who died in February, 1880, and is part of a claim of \$75,000 against the Mexican government.

At one time Augustine Alvizo was a great land king, but at the time of his death all the property he left was to be divided between his five children. "Constant litigation has kept the estate from being settled and Jose has many times contested the action of his brother Valentine, who was appointed administrator of the estate. He lost every one of the fights and now has decided to act as his own attorney. The complaint alleges that Jose G. Alvizo was induced by his brother to sell his one-fifth interest in the claim, upon the statement of his brother Valentine, who informed him that the claim was of but little value. The complaint alleges that since the sale, Valentine has collected \$16,000 through the claim and there is more in sight.

elect to the office to which I aspire I will promise you to do what I can in seeing that the future generation is furnished with men and women who will be a credit to their country."

JAMES BARBER.

County Tax Collector James Barber was the next speaker to address the audience. He said in part: "In meeting you tonight it is the purpose of the candidates to allow the public to become acquainted with them. In the case of myself and several others on the ticket it is only the resumption of old acquaintances as our records have been before the public for a number of years. "Those records I believe to be thoroughly honest. The people will make no mistake in returning those men to office. "Not only have the people cause to be grateful for an honest government at home, but they have cause to rejoice in having a national administration that has wrought prosperity from the poverty-stricken conditions left us by our Democratic friends. The successful administration of the Republicans ought to be a sufficient inducement for the voters to uphold the party that has not only brought them relief but prosperity."

WILLIAM GEARY.

William Geary, candidate for Justice of the Peace in Brooklyn Township, was the next speaker. He was heartily cheered, after a one-minute speech.

S. P. HALL.

Judge S. P. Hall, candidate for Superior Judge to succeed himself was next introduced. He said: "We have visited you for the laudable purpose of getting your votes. Many of the candidates are not strangers to you. Judge Greene has been a distinguished member of the community and the bar for the last twenty-three years. To sound his praise would be like carrying coal to New Castle. Judge Melvin is equally well-known to you. He has been a judicial officer in this township as Justice of the Peace."

"For myself I have little to say. My record in office has been clear. It is the faithful service the Republican party has honored me. Three times I have been the District Attorney, and for the last six years I have been on the Superior bench."

JUDGE W. E. GREENE.

Superior Judge W. E. Greene was next introduced. He said in part: "I would like to say a few words about Judge Melvin and Judge Hall. He is the youngest of our Judges, yet he has made a record that any Judge might well be proud of. He is deserving, as is also Judge Hall, of re-election. The loss of either of these gentlemen will be a loss to the bench of Alameda county. For myself, I have been before you as a Judge for twenty-three years and would be able to tell my qualifications by this time."

H. A. KRAMER.

H. A. Kramer, candidate for re-election, and Member at Large, was then introduced. They made brief speeches, which were well received.

A. P. LEACH.

A. P. Leach, on behalf of Coroner McElmurry, when introduced, said: "He made a forceful speech in behalf of the entire Republican ticket. He said in part: "I believe it is a rare privilege to be permitted to live in this age of wonderful achievement, when there is less misery and less poverty than ever in the history of our people. The happy life of contentment and plenty which fills all the land has not always been with us. Those of us with memories extending back six years remember when famine and pestilence were eating out of the hand of charity. A deeper period of financial depression and gloom never settled upon the nation. The magic touch of that master statesman, William McKinley, was necessary to rekindle the fires in the factories and destroy the period of stagnation."

"Our Democratic friends are suggesting a change is needed. Allow me to ask you if you are tired of the prospect of McKinley and Roosevelt. Are you too well fed? Are you satisfied with a full dinner pail and an opportunity to earn a good day's wages for eight hours work? If so, you are duty bound to vote for a return of that soup-house period which is a blot on our history."

OSCAR ROGERS.

Sheriff Oscar Rogers was next called upon. He said: "I want to congratulate the people of Alameda county upon the splendid Republican majorities they have herebefore given. I believe this new precinct will follow the grand tradition of victory again. The Republican party is the greatest political power the world has ever produced in the way of a party. It is the greatest power in its purpose and successful in its endeavors. What party but the Republican party could have transformed the desolate and backward into a nation of prosperity and plenty except the Republican party? When the people of this county vote for the Republican ticket, they are voting for a full dinner pail and an opportunity to earn a good day's wages for eight hours work. If so, you are duty bound to vote for a return of that soup-house period which is a blot on our history."

GEORGE GRAY.

George Gray, candidate for public administrator, was the next speaker to urge his claims upon the voters. He said in part: "The Republican party has nominated me for the responsible position of Public Administrator. The duties of the office require capable and, above all, honest administration. If the people of this county are not satisfied with the present administration, I promise you four years hence there will be a clean record attached to the office."

E. C. PRATHER.

E. C. Prather, candidate for County Surveyor, was the next candidate to make friends with the audience. He said: "I am not an orator like those who have preceded me. I must present myself to you in a plain, blunt way. The life of a surveyor is not calculated to make a political orator out of one. I know more about the hills, valleys and roads of your county than I do about vote setting and must rely upon that knowledge to influence you in voting for me."

DR. N. K. FOSTER.

Dr. N. K. Foster, candidate for the Assembly, was the next speaker. He said in part: "In selecting the man whom you wish to represent you in the Assembly, he should be judged by his character and achievements and by his party. My record and character are well known to you, and any man can be well proud of the fact that he is the nominee of the Republican party. The only principle I will make is to vote for United States Senator George C. Perkins to succeed himself."

HARRY LYNCH.

Harry Lynch, candidate for County Superintendent of Schools, was the next speaker. He said: "The greatest pleasure we can obtain from life is to see our children growing up. That pleasure is doubled when we know that they are growing up wisely and virtuously. The broad influence of our schools is the one guarantee of good citizens. If I am

COUNCILMAN OBJECTS TO AN AMENDMENT

Editor TRIBUNE—From years of observation I have noted this fact: That when a legislator runs up against the Constitution in his attempt to carry out some vicious scheme of legislation he at once resorts to the effective plan of getting rid of the obstacle by amending the organic law, in order to let down the prohibitory bars to his scheme.

The general principle which should govern the voter in all cases of any kind, is to cast his vote against any and all proposed amendments to the Constitution, unless it shall be demonstrated beyond question, that the amendments proposed are just—and more, that they are of a clear and absolute necessity.

That Assembly Constitutional Amendment No. 28 is of the class vicious, is evident and glaring to the most casual reader, and should be defeated by an overwhelming majority.

There are ten positive and unanswerable reasons why the amendment No. 28 should be killed, to wit: First—The vicious amendment will increase taxation.

Second—Its adoption would make it impossible to secure any reduction of rates for any public service.

Third—it perpetuates the inefficient features of the present Railroad Commission.

Fourth—it destroys municipal ownership of public utilities.

Fifth—it interferes with the local self government.

Sixth—it places inordinate powers in the hands of the Governor.

Seventh—it will deprive cities and counties of license fees now paid by corporations.

Eighth—it takes from local bodies all control of franchises.

Ninth—it establishes a bureaucracy.

Tenth—it is antagonistic to a Republican form of government, taking power from the hands of the people and placing it in the hands of a commission appointed by the Governor. If this vicious amendment to the Constitution is carried, the Commission will rule this State, and with an autocratic power second only to the czar of Russia; and with a term of office longer by six years than any other elective officer, except the Justice of the Supreme Court. They would be entirely independent of the will of the people—and, like the old, infamous "Council of Ten," they could perpetrate themselves in office—and nothing but a revolution could oust them. A word to the wise ought to be sufficient.

A. W. BISHOP.

## POPULAR PLAYS AT THEATERS.

### "EAST LYNNE" AND SHIRLEY COMPANY DRAWING FINE HOUSES.

The story of the good old play, "East Lynne" that was so excellently produced at the Dewey Theater again last night, is familiar to all theater-goers, but it is not often that patrons of the play-house have the opportunity to witness so fine a production of the piece as that now at the Dewey. The management has spared no expense in any department of the theater. In fact, the performance is considered the best ever given of the world-famed play in Oakland.

Lillian Atwood portrays the difficult character of Lady Isabel and Madame Vine in a way that only a finished actress could do. She holds the audience, so to speak, in her control, and she is considered the best ever given of the world-famed play in Oakland.

## DR. PARDEE MAKES GREAT PROGRESS IN THE NORTH.

**HIS MEETING ARE CROWDED AND HE IS GIVEN ENTHUSIASTIC SUPPORT BY THE VOTERS.**

RED BLUFF, Oct. 8.—George C. Pardee reached Red Bluff early this morning. Several well known Republicans were waiting for him at the depot at midnight. When he arrived at 12:40 o'clock, he found Superior Judge J. F. Ellison, D. D. Dodson, H. S. Gans and Dr. G. W. Westlake at the station to greet him. They had carriages ready for Dr. Pardee, Mrs. Pardee and Duncan E. McKinlay, and the visitors were taken to a hotel.

Pardee came here without delay after the rally at Chico last night in order that he might go to Corning today. In compliance with many requests the State Central Committee yesterday interpolated Corning in his list of meeting places, and he had to hustle to make train connections. He spoke at Corning early this afternoon and then returned to Red Bluff, where he addressed a very large crowd tonight. Judge Ellison, Erskine Fish and D. D. Dodson accompanied him to Corning.

As the committee met at Corning did not know until yesterday that Pardee was to talk there they did not have time to notify the residents of that section, and the hall was not entirely filled, although the audience was of satisfactory size. John Crockett presided. At Corning, as well as in all other parts of Tehama county, everybody has plenty of work to do at present. Orchardists, farmers, commercial men and working men are busy.

Pardee alluded to this fact in his discourse. "Seven or eight years ago," he said, "no effort was required to secure a crowd for a public meeting in the afternoon in any part of the State. Men had an abundance of leisure in the daytime then, for they had no work to do and they could not get any, try as they would. Now the idle man is an exception to the rule. All hands are employed, and the employers have so much to think about and look after that they would have to neglect their business to attend an afternoon meeting. Therefore there is no reason for regret when a gathering like this, in the hours of work, is not as large as it would be when the hours of toil are over."

"Republicans, especially, have no cause for regret, for the policy of their party has brought about the present prosperity of California, the increase of its industries and the demand for labor of all kinds. Democrats say that our prosperity is due to natural conditions, but the sunshine was as beneficial under Cleveland's administrations as under McKinley's, and in this election with district. Why does our prosperity depend on the Democratic ticket, who is an honorable man and a gentleman, refuse to discuss the merits of the two parties? He does not say that national politics are not involved in this campaign? I stand for the very best of the Democratic ticket, the protection of American industries and American workmen. I am not asking for an arm and a leg, I am asking for a fair and honest election. Democratic tariff for revenue only would change the present condition of our country into a state of ruin. The women of California should remember when their husbands, fathers, brothers and sons had nothing to do, and they should see that the men do not vote wrong."

Duncan McKinlay, who made the closing speech, said that he hoped to pull the wool over the eyes of laboring men in San Francisco and other large cities, but he thought that intelligent working men would not be misled by Democratic appeals.

After the meeting Pardee went on to Redding, where he is to speak tomorrow night. He will visit the miners at Keswick tomorrow afternoon.

ROUTINE IN POLICE COURT.

Charles Morton and Remington Peitgraft, convicted of battery upon two Japanese, will come up for sentence in the Police Court on October 15th.

Manuel Davis was sentenced in the Police Court to pay a fine of \$50 or serve thirty days in the City Prison. He was found guilty of battery upon a woman.

Pardee declared his friendship for organized labor and his desire to do anything that lay in his power to promote the interests of the working man. I have been asked to make large number of promises since this campaign began," he continued, "but I have refrained from doing so. I have always noticed that the man who is quick to promise is usually slow to perform. My position in a nutshell is that I am going to make as good a Governor as I can be, and to administer the affairs of the State for the advantage of the entire people. I want to secure the interests of all our people, rich and poor, bankers and laboring men, taken care of. When I go to Sacramento as Governor, no man shall say that I am not after the votes of any single class.

"I want the support of all classes of people, as I propose to give my best efforts to the overthrow of the present administration. I shall give careful attention to all of the State institutions, and I shall scrutinize all expenditures so that economy may be observed and practiced during my administration. I need not tell you that I intend to be honest. I have had some experience in public affairs already, and I have not been guilty of any dishonesty so far. I am going to remain in California till I die, and I want to have as good a reputation as possible after I quit the office of Governor."

Pardee's words caused much applause. After an address by Duncan E. McKinlay, Pardee was introduced to many persons at the Hotel Maywood and then moved around and made himself acquainted in the community until the train came.

On leaving Red Bluff was thronged to the doors tonight, when Pardee spoke and his appearance and utterances aroused enthusiasm. The number of persons present was estimated at 2,000. Whole families were in attendance and a dozen or more babies were brought along by careful parents, some carried in arms and some wheeled in baby carriages. One jolly infant kept crying throughout Pardee's address.

The Republican committee here feared this morning that the pavilion might not be filled, as there were two shows in town, one entertainment being free, but their apprehension was needless as the desire to hear the Republican standard bearer was widespread. All classes of people were in attendance, and Pardee made an excellent impression on all. Men conversed about him on the streets after he finished and commended him.

Before the meeting a band played, a big bonfire blazed and bombs were exploded. The pavilion was especially fixed up for the occasion. The platform was covered with flags. Pictures of McKinley and Roosevelt were placed on the walls, the American eagle was in evidence, and the band and drummers heightened the decorative effect. A trio of colored instrumentalists played between the speeches.

Judge Ellison introduced Assemblyman Herbert S. Gans as Pardee, who was hailed with great applause and cheers, began by saying that he would not make an extended address or attempt any oratory, but would simply speak his mind in a plain, ordinary, every-day way. He stated that he was not an aristocrat, that his sympathies were with all toilers and that he would assist whenever he could in the advancement of the plain, common people, from whose ranks had sprung many of the greatest men of this Republic, such leaders of the Republican party as Lincoln, Grant, Garfield and McKinley.

"I sat on the same bench with the laboring man's child when I attended the public schools, where my education was derived," Pardee said, "and many of the friendships that formed then are still strong and are among the treasures of my heart. Many of my closest acquaintances socially are workingmen, and the sturdy character and the worth of honest laboring men. To say that I have any aristocratic pretensions is not true. I trust that I am too much an American in spirit that I have too much sense not to know that the working class is not only as good as any other class, but that it is the very backbone of this nation. However, I shall never appeal to any prejudice or endeavor to promote any policy to secure the support of any class. I want to see California, my native State, continue on her glorious way, with all her people joining in the preservation of her prosperity. I want to see the bankers, the miners, the merchant, the laborer, the horticulturist, the vintner, the farmer, the manufacturer—I want to see all of them benefited by the continuance of good times in California and by the right administration of state affairs."

When Pardee referred to the planting by Dewey of the American flag in the Philippines vigorous applause was given and it was renewed at the mention of Roosevelt's name. He proceeded:

"You might be inclined to think that there is no national politics in this election with district. Why does our prosperity depend on the Democratic ticket, who is an honorable man and a gentleman, refuse to discuss the merits of the two parties? He does not say that national politics are not involved in this campaign? I stand for the very best of the Democratic ticket, the protection of American industries and American workmen. I am not asking for an arm and a leg, I am asking for a fair and honest election. Democratic tariff for revenue only would change the present condition of our country into a state of ruin. The women of California should remember when their husbands, fathers, brothers and sons had nothing to do, and they should see that the men do not vote wrong."

Duncan McKinlay, who made the closing speech, said that he hoped to pull the wool over the eyes of laboring men in San Francisco and other large cities, but he thought that intelligent working men would not be misled by Democratic appeals.

After the meeting Pardee went on to Redding, where he is to speak tomorrow night. He will visit the miners at Keswick tomorrow afternoon.
